

MOTION BY SUPERVISORS GLORIA MOLINA AND

September 9, 2003

YVONNE BRATHWAITE BURKE

In preparation of the October 7, 2003, Statewide Special Election, the Los Angeles County Register Recorder/County Clerk has recruited 1,786 consolidated polling locations, and has made a concerted effort to recruit the best available polling locations that meet all the requirements for accessibility to voters.

These consolidated polling locations are, in the vast majority of instances, in the voters' immediate and familiar neighborhoods, but in some cases, due to previously scheduled commitments, many traditional, long-standing polling locations were unavailable for this particular election.

Because some voters may not notice that the polling location listed on their sample ballots for this special election have changed and they may go to polling locations where they have previously voted, it is vital that voters be directed to their proper polling locations.

WE, THEREFORE, MOVE THAT the Board of Supervisors instruct the Registrar Recorder/County Clerk to include in their plan to post a "Notice to Voters" sign at all the November 2002 polling locations that are not being used for the October 7, 2003 election, a map depicting the new polling location.
